Locations Set as Wells Complete

Two Ellenburger Wells Completed on Toler Tract; New Pays Encountered in County

Activity in the Hamlin oil areas showed new life this week as completions were filed on several wells, and a number of new locations were staked in the vicinity.

Texas Pacific Coal & Oil Company, completed two Ellenburger wells on the Pardue-Toler tract, and swabbing was underway Thursday with final completions set for Friday. Neither of the wells had been tested, and gauging will be done after the swabbing operation is completed.

Texas Pacific moved in on a location Wednesday and prepared to begin drilling on the Dickey Ferguson lease, immediately north of the Pardue-Toler discovery Ellenburger well.

General Crude was moving in Thursday to begin drilling the No. 4M. Flores-B. The well is scheduled to go to the Palo Pinto reef at 4,800 feet.

Texas Pacific announced completion of another well on the Port H. Williams tract, south of the Pardue-Toler lease, but information as to depth and production was not available.

General Crude started drilling operations Tuesday on the M. Flores No. 1 in the southeast corner of the southwest quarter of section 212. The well will be drilled to 5,000 feet. Ellis A. Hall was at 2,000 feet on the No. 7 G. A. Poe Wednesday. The well is slated for the reef at 4,800 feet.

Texas Pacific moved in Thursday on the No. 3 Redus, (a south offset, 350 feet south of the Redus No. 1). The well will be drilled to 4,800 feet.

Mervie Galloway of Peacock was a guest of Flavel Holmes in Hamlin last Friday night.

Miss Rita Hall of Ottawa, Canada, is a guest in the home of Mr. and Mrs. Glenn Wainwright.

Two new pay sands have been discovered recently in the production area south of Hamlin. They are the Gunsight and Flippin, discovered in the Ungren & Frazier et al. No. 1 C. A. Graham, west offset to the Gunsight discovery well.

Pipe was run to the top of the Gunsight at 3,141 feet, and a drill-stem test of that formation brought gas to the surface in 13 minutes, and recovered 1,530 feet of oil with no water.

A previous drillstem test in the Flippin at 2,836-54 feet with tool open one and one-half hours, brought gas to the surface in three minutes and oil in 31 minutes. Recovery from the Flippin was 990 feet of oil.

C. U. Bay & Taubert have staked the No. 3 E. E. Farnsworth, south outpost to the Gunsight discovery well. The new test is scheduled for 3,600 feet with rotary tools.

J. H. and E. N. Patton of Rotan have filed application to drill the No. 1 Catholic Church well in the Round Top field as an offset to proven production.

The location is on a three-acre lease occupied by a Catholic cemetery. Proposed depth is 5,000 feet.

Round Top Oil Company has staked a location in the Round Top field to be known as the No. 7-H E. A. Hall fee. The well is 10 miles west of Hamlin. It will go to a maximum depth of 5,000 feet.

A gauge of 396 barrels of 42.4 gravity oil in 24 hours has been filed by General Crude Oil Company for the No. 1 Lopez-Flores unit, offset to production seven miles west of Hamlin.

The No. 3 Merry Brothers & Perini, et al. 10 miles west of Hamlin, has filed official gauge of 270.12 barrels of oil in 24 hours. The flow was from open hole at 4,868-78 feet through quarter-inch choke.

Rates for Refunds of Overcharges on GI Insurance Policies Given by VA

The Veterans Administration's first calculations on amounts proposed to be paid nearly 15,000,000 veterans in the 2.8 billion special National Service Life Insurance refunds have been received by the Veterans Administration regional office at Lubbock this week, Robert W. Sisson, manager, announced.

Maximum possible amount any veteran can receive will be \$528. Other payments, based on age groups will run to lesser sums. The refund will be paid on both term and converted insurance policies, and will be paid only for the period that the policy was in force prior to the policy anniversary in 1948. No payments will be made for periods of lapse, V-A emphasized.

According to Carl R. Gray, Jr., Administrator of Veterans Affairs, the estimated rate of the refund was arrived at after long actuarial studies, and that the rate of payment will be the same for both term and converted policies, as the dividend is based on mortality savings since there are no excess interest earnings.

In arriving at the refund scale, standard insurance practices were followed, whereby dividends on a life insurance policy represent a return to the insured of excess of premiums paid over the amounts required to pay claims and set up necessary reserves. This is not necessarily proportional to the premium paid.

While portions of the premium originally estimated as necessary to pay claims may turn out to have been too high and can return a dividend, the part of the premium that goes into building up reserves cannot return a profit unless the fund earns a rate of interest higher than that assumed in the premium calculations. This has not been done in the case of National Service Life Insurance.

In computing the maximum payment of \$528, the dividend was based on a \$10,000 policy in force for 96 months, (the longest possible

period), on a veteran aged 40 or less at the time the policy was taken out. This represents a payment of 55 cents a month per \$1,000 of insurance. As the mortality rate for the age group of 40 and under did not vary greatly, a single refund rate will apply to this whole group.

The rates of payment will be: Those under 40 years of age at the rate of 55 cents per month per \$1,000 of insurance; those 41 to 45 years of age scaling down from 45 cents to 40 cents; those 46 to 50, 37 cents down to 25 cents; those 51 to 54, 24 cents down to 21 cents; those 55 and over, 20 cents per thousand.

Townley and Gold Named to Posts in State VFW Setup

Ben Townley and C. W. "Jiggs" Gold were named to important positions in the state Veterans of Foreign Wars organization, it was announced by Bruce M. Francis, department adjutant, of Austin.

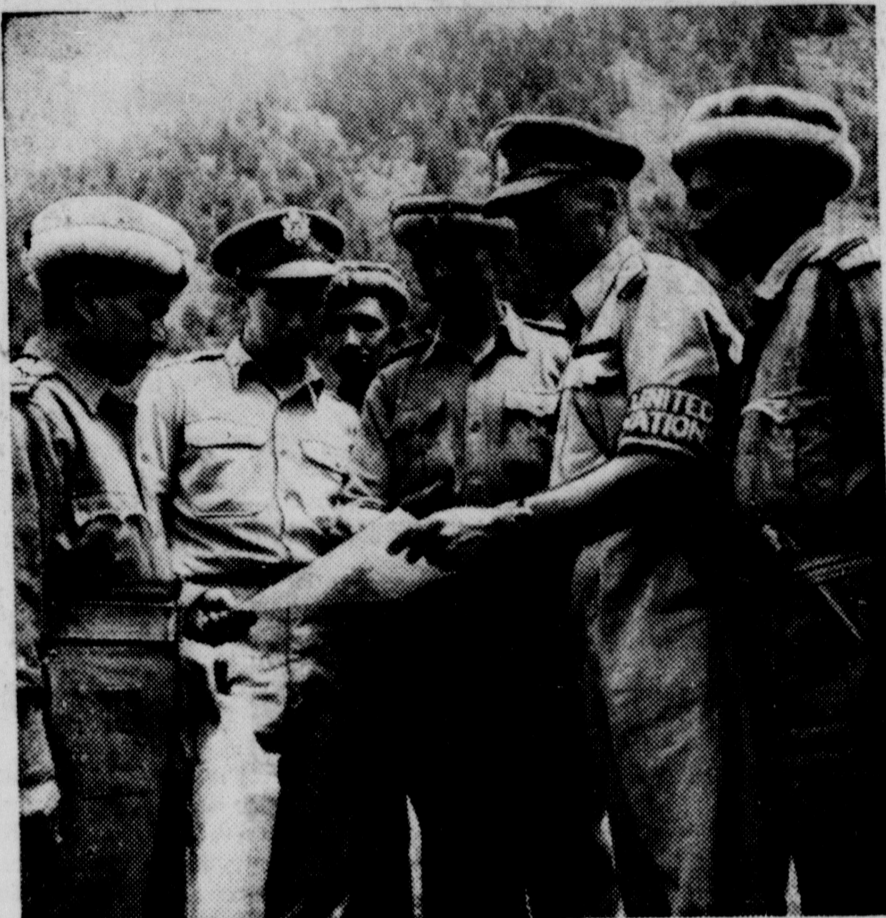

The appointments were made by Julian Dickerson, department commander.

Gold was named assistant to the chief of staff for the department. Gold is commander of the Hamlin VFW post No. 6014.

Townley was appointed deputy inspector for VFW posts in the state. John Owens of Abilene is inspector. Townley will be called on to attend installations of officers and to visit this area.

Lt. and Mrs. W. H. Pickron and children, of Shreveport, La., were guests last week of Mr. and Mrs. W. H. Pickron in Hamlin and Mr. and Mrs. George Darden in McCaulley. Mrs. W. H. Pickron accompanied them as far as Mineral Wells on their way back to Shreveport, where she spent several days visiting.

'Here Are They, and Here Are We...'

The still dangerous Kashmir issue—arising from the question of whether the state of Kashmir should join India or Pakistan—seems to be nearing a peaceful solution through the efforts of the United Nations. Invitations to implement recent truce agreements have been accepted by both countries involved. Meanwhile, however, U. N. military observers stay on the job, to check on possible unauthorized advances beyond accepted "cease fire" lines. Here a U. S. lieutenant and a Canadian colonel, under orders of a U. N. Commission, check positions of opposing troops.

Heart Attack Fatal to Fed Britton, Prominent Early Day Settler Here

A heart attack, first suffered early Tuesday morning, proved fatal to Fed Britton, early day resident of this area, and prominent business man and rancher of West Texas. Britton died at 4:15 a. m. Thursday in the Hamlin Memorial Hospital, where he had been under treatment since Tuesday morning.

Born in East Texas, September 2, 1889, Britton came with his family to Jones County in 1901 and settled in the Neinda community. The Britton family operated one of the first stores to do business in Neinda.

Britton married Miss Carrie Hudson of Neinda on October 4, 1908. Miss Hudson was a member of a pioneer Jones County family.

They moved to Hamlin in January of 1915, where Britton engaged in business.

He had extensive property holdings at time of his death. He was president of the Producers Gin Co., operated a cotton warehouse here, and was a partner in the ranching firm of Britton & Lowe near Whiteface, Texas. Dick Lowe, a former resident of Hamlin, was the junior partner.

Hamlin Woman Hurt In Wreck Near Anson

Mrs. F. E. Holden of Hamlin suffered injuries in an automobile accident on the highway near Anson shortly after noon Wednesday.

She was brought to the Hamlin Memorial Hospital in an ambulance and after receiving treatment here she was transferred to Hendrick Memorial Hospital in Abilene for further treatment.

The accident took place when the tire rod came loose on the car driven by Mrs. Holden, and the machine left the road and plunged off the end of a small culvert.

Mrs. Holden sustained a serious fracture of the jaw, an injury to a knee and numerous bruises and abrasions. A small boy riding with her escaped without injury.

Treadwell to Abilene, Replaced by Crawford

Herman Treadwell, who for the past eight months has served as manager of the Banner Ice Company, in Hamlin, has been transferred to Abilene to the home plant of the company, effective October 1.

Mr. and Mrs. Treadwell will go to Abilene early next month to make their home.

Replacing Treadwell as manager of the local plant will be Onis Crawford, who for several years has been an employee of Bryant-Link Company in Hamlin. Crawford will take over his new duties October 1.

Careless Hunters Shoot Into House Narrowly Miss Tot

A bullet that crashed through the kitchen window of the Martin Barnett farm home about 12:30 Friday afternoon, whizzed within inches of Mrs. Barnett and came close to the 17-months-old son that he feared.

The bullet, a 22 caliber long, shattered the window glass and fell to the floor after putting a dent into a metal refrigerator.

At the dining table at the time were Mr. and Mrs. Barnett, the baby, Mrs. Barnett's parents, Mr. and Mrs. S. J. King and Spurpeon King. The farm home is located one mile south of Hamlin.

D. W. Carlton, a neighbor, said he saw several men or grown boys near the Barnett house about that time. They were carrying a gun, he said.

The Barnett baby, Gerald, fell to the floor when the shot struck, and a doctor to whom he was taken said the child evidently had fainted from fright.

Enforcement officers are conducting an investigation to determine identity of the person or persons who fired the shot.

Albany Man Gets 7 Years in City Burglary Charge

J. D. Foster of Albany was sentenced to seven years in state prison by a jury in 104th district court at Anson this week on a charge of burglary.

Foster, who is said to have had four previous convictions in Texas courts, was accused of having broken into the Texaco warehouse in Hamlin on May 26.

Two cases of motor oil, a gasoline motor and other items were stolen from the warehouse. He was also accused of having taken 28 grain doors from the Santa Fe railroad yards in Hamlin.

Madison Lee Reynolds of Anson was assessed a term of seven years on conviction of forgery. Reynolds, who was employed briefly by Duke Green of near Hamlin, was charged with having forged Green's name to several checks passed to Anson merchants.

LIONS, ROTARIANS AS ESCORTS...

Hamlin Teachers to be Presented at Informal Reception Monday Evening

With members of the Lions and Rotary clubs serving as escorts, the faculty of Hamlin's schools will be presented to the public at an informal reception Monday evening, Mrs. O. T. Kelley, president of the Wednesday.

The reception will be given in the Parent-Teachers Association, said Elementary school lunch room at 7:30, sponsored by the PTA.

All parents of students are invited to attend the reception, and Mrs. Kelley urged that all cold formality be laid aside for the purpose of creating an atmosphere of cordiality and welcome to the teachers.

Members of the two service clubs have been asked to provide transportation and escort service for the faculty members, and names of specific faculty members, have been assigned to Rotarians and Lions who has indicated they will attend the meeting.

Mrs. Burch Injured in Fall From Moving Car

Mrs. C. F. Burch, the former Doris Havins, suffered painful bruises and abrasions to her body about 7:30 Tuesday evening when she fell from the open door of an automobile driven by her husband.

Mr. and Mrs. Burch were driving on the Rotan highway and were turning the car around, about three miles west of Hamlin, to return to their home, when the right door of the automobile suddenly came open, throwing Mrs. Burch to the pavement.

She was taken to the Hamlin Memorial Hospital for diagnosis and treatment and then removed to her home.

Hamlin Negress Faces Trial on Slaying Charge

Jimmie Frances Land, Hamlin Negress, will face trial in 104th District Court on Wednesday, October 5, for murder in connection with the ice-pick slaying of James Cooper here June 24.

The woman was billed by a grand jury last week in Anson, and her trial was ordered set for early in October.

Cooper, alleged by friends of the defendant, died in the Hamlin Memorial Hospital early Monday morning, June 26. He had been admitted to the hospital late Saturday night, June 24.

The stabbing took place shortly after midnight following an argument between the pair.

The defendant claimed she stabbed Cooper after he had begun to slap her and had knocked her down. She said she told him to quit and he refused. She stabbed him twice in the breast.

Pierre Charles L'Enfant, French engineer, planned the layout of Washington D. C.

Pipers Trounce Bulldogs 26 to 0

Hamlin Players, Rated as Underdogs, Hold Heavier Team Scoreless; Dean Was Star

Entering the game definitely as underdogs, the Hamlin Pipers surprised the heavier Spur Bulldogs last Friday evening, when the visitors were held scoreless on the Piper field before an almost capacity crowd.

The Pipers, who early in the season were believed to be too light and inexperienced to set much of a record during the current season, took their second game of the season in as many tries. In neither

game did the Pipers' opponents cross the goal line.

Joe Allen Dean, letterman quarterback, played outstanding ball throughout the evening and accounted for two touchdowns and two conversions.

However, the flashing Dean had full cooperation from a well-coordinated grid machine throughout the four periods, and none of his stellar plays were solos.

In the first quarter Goodgame recovered a fumble from the Bulldogs and placed Hamlin in scoring position. On the third down Dean grabbed the ball and placed it across the stripe for the first counter. Dean's try for conversion failed.

Apparently dazed by the unexpected aggression on the part of the Pipers, the Bulldogs failed in their efforts to rally, and were held without getting even a first down during the first three quarters. The Piper defensive mechanism worked perfectly and blocked all attempts of the visitors to gain sufficient yardage for a first down.

During the second period the Pipers scored twice to set up a half time lead of 19 to 0.

For the first touchdown of the second period Dean carried the ball across from the 10 yard line, where it had been placed after a series of line plunges. Dean's try for extra point failed.

In the second quarter for the period Donald Green raced 23 yards to put the ball across. Dean again tried for extra point, and made it, to give the Pipers the 19 to 0 tally.

Final score of the game was by Asa Goodgame, left end, who received a pass from Dean and carried the ball across standing up. The extra point was good.

Spur players were on the defensive throughout the game, and despite the advantage of 19 pounds average in weight, the visitor's first sufficient yardage for a first down came only late in the fourth.

Late in the last period Spur threatened the Pipers when they managed to get the ball onto the Hamlin 10-yard line. But brilliant defensive work by the Pipers brushed off the threat.

The Pipers are resting up this week, with no game scheduled. Coach Red Burditt said his team has come through the first two encounters with a minimum of injuries.

In last week's game Dean developed a leg cramp late in the fourth, that caused a limp. This condition was clearing up this week, Burditt said, and Dean is expected to be ready for the Pipers' next contest, when they will go to Anson next Friday night for the third game, a non-conference battle.

Statistics on last Friday's game were: First downs, Hamlin 14, Spur 3; yards gained rushing, Hamlin 181, Spur 94; passes completed, Hamlin 5 of 8, Spur 1 of 9; yards gained passing, Hamlin 44, Spur 9; Passes intercepted by, Hamlin 10, Spur 1; penalties, Hamlin 5 for 25, Spur 3 for 15; fumbles, Hamlin 4, Spur 6.

Music School to Be Conducted in Baptist Church

A school of music will be conducted in the First Baptist Church from October 2 to October 7, it was announced this week by Mendal Wharton, educational director of the local institution.

The school will be directed by C. A. Boher of Dallas, who is a field worker for the Music Department of the Texas Baptist Convention.

Boher was in Hamlin last year for a similar course, which drew large attendance.

The school will specialize in church music, Wharton said, and people of all faiths are invited to attend the classes, which will be held from 7:30 to 9:30 each evening, Monday through Friday.

Mighty Mice Set Stamford Game Thursday Night

Hamlin's grade school team, the Mighty Mice, was set for a contest with the Stamford junior set at Stamford Thursday evening, Coach Bob Nunley said this week.

The Mice failed to play last Thursday evening, when the game with Rotan was called off because of rain and muddy field.

"The Hamlin players are in excellent condition, and we look for a real game with Stamford," Nunley said Thursday morning.

Probable lineup for the Mighty Mice was slated as follows: Richard Lovier, left end; Billy Ray Barnett, left tackle; Richard Powell, left guard; Dwain Rogers, center; Lonnie Binnicker, right guard; Don Crowley, right tackle; David Cowan, right end; Billie Ray, right half; Jimmie Ray, left half; Robert Angel, quarter back; Donnie Holloway full back.

Rotary Governor Is Speaker for Hamlin Club Meet

Rotary District Governor Grover C. Boswell of Ranger was principal speaker on the program for the Hamlin Rotary Club meeting Wednesday at noon.

Boswell, who is superintendent of the Ranger school system, and president of the Ranger Junior College, discussed the Rotary program and gave some interesting sidelights on the Rotary International Convention.

He told of delegates to the United Nations meetings who expressed the wish that they could become citizens of the United States. One woman from Finland, he said, seemed very interested in obtaining citizenship here, and a couple from England.

"Rotary embraces all the elements of life," Boswell said, in discussing the broad service program of the club. He said that Rotary International had more members in the United Nations than any other service club.

The Rotary Foundation program, set up to assist worthy students in securing college educations sent 111 students to college last year and plans are underway to send 165 this year, Boswell said.

The speaker listed three brief rules for success outlined by Rotary Governor Mitchell of Australia in a talk before the convention. He said

1. disagree without being disagreeable; 2. take your job seriously but don't take yourself too seriously; 3. be yourself.

The Hamlin club appointed members to serve as escorts for teachers of Hamlin schools at the reception planned for Monday evening by the P-TA.

WILEMON GRAVELLY ILL.

Buck Wilemon was admitted to the Hamlin Memorial Hospital last Saturday, and his condition this week was reported to be critical. Wilemon is suffering from cancer.

Paul Bryan will leave Sunday for Fort O'Connor for a fishing trip. He will be gone several days.

Mr. and Mrs. H. B. Middleton of Vernon are guests in the home of Mr. and Mrs. B. Middleton.

This Planned Economy

Perhaps it makes sense to the new dealers who "planned it that way," but to the average honest American there is neither rhyme nor reason in the absurd spectacle of a great government using money out of one pocket to limit production and taking money out of the other pocket to increase the same production.

Take the example of Maine potato farmers. Only a few weeks ago the taxpayers of our nation were amazed and enraged when it was learned many potato farmers had been paid more than \$100,000 in one year to curtail production of spuds. The announced reason was to "hold up the price." (And people who must buy potatoes can testify that this purpose was achieved.)

Despite the fact that millions of dollars—money that you and I had to pay into the treasury in income tax returns—was paid out for cutting down potato surpluses, the Department of Agriculture went blithely on its way urging farmers to adopt "approved practices" to increase production. And this other department of the same government was paying out other millions to encourage decreased production.

Here in our own section of America millions of dollars have been paid out in subsidies to farmers to hold down acreage, curtail production, and even to destroy crops that had already been produced. And while this practice was going on, the Extension Service was urging the use of fertilizers and chemicals and new practices to cause greater production of the very crops farmers were getting paid to destroy.

Subsidies are un-American and unfair. There is no sound law of economics which justifies them. They create a condition of false prosperity at the expense of the very people they propose to aid. They put an excessive burden on the backs of the consumer, and commit an actual wrong against the natural laws of God. They cause prices of commodities to rise arti-

cially—but they are of great benefit to the politician and the pettyfogger in securing votes at the polls.

Only last week The Herald received a "press release" from Bill Lehmborg, county agent, in which that official was giving advice on "how to increase production." In the same mail was additional material from another governmental branch on limitation of acreage as a means to hold down production.

The men who prepared both articles are being paid from public funds. That they are working at cross purposes is a fact that nobody can deny. And that this continual muddle of public affairs is costing the poor, over-burdened taxpayer is a fact becoming increasingly clear to the man who pays.

Ignoring this paradoxical situation, and apparently afraid that public funds cannot be spent fast enough by such devious methods, the president is continuing to urge greater and greater expenditures. He wants money to be sent to England and France and Holland and Greece, and now he even wants to spend millions in Communist Yugoslavia.

It takes no prophet to foresee that federal taxes will continue to skyrocket and that you and I will continue to bear the burden from all sides. We will be nicked for tax money to pay for reduced production; nicked for tax money to pay for increased production; nicked for tax money to pay subsidies; and nicked for higher food prices caused by the use of subsidies.

That is a present picture of our "planned economy." In the words of the late Franklin D. Roosevelt—"We planned it that way."

Fill your time with positive service and good. Do not drift. Have definite things on hand to do.—Henry Churchill King
There are two freedoms—the false, where a man is free to do what he likes; the true, where a man is free to do what he ought.—Charles Kingsley

paw and maw had anuthir argymint agin last nite and it all cum up ovar a invitashun maw got to go to a party. the invitashun sed fer her to ware a even gown and whin paw red it he got mad as ennythang. he sed he jest woodint heer to his wife goin sumwhar in her nite close. he sed it wuz bad anuff fer wimmin to dress like thay haiv bin a doin, but he wuz gonna put his foot down reel hard whin maw wuntid to go to a party in a nite gown.

maw finely had her way about it like she always duz but she sed paw wuz jest a old fashioned soar hed.

hoapin you are the saim,
yores troolie,
yore frend,
pete odle.

And How He Bites!

'People Should Support Government Not Government the People'--Cleveland

By GEORGE PECK

"When more of the people's sustenance is exacted through the form of taxation than is necessary to meet the just obligations of government and the expenses of its economical administration, such exaction becomes ruthless extortion and a violation of the fundamental principles of free government."

Who said that? No, it wasn't Senator Taft nor was any conservative Republican. Grover Cleveland, Democratic President, said it in December, 1886, during the course of his Second Annual Message.

Were Cleveland alive today, undoubtedly he would demand that the Federal Government change its attitude toward business and industry and abandon its program of robbing the taxpayers to play Santa Claus to the American citizenry.

The political planners would do well to read what Jonathan Swift wrote in his "Voyage to Brobdingnag" early in the 18th Century: "Whoever could make two ears of corn two blades of grass grow upon a spot of ground where only one grew before, would deserve better of mankind and do more essential service to his country than a whole race of politicians put together."

Were Swift able to speak from beyond the grave, his advice to America would be to stop aping the socialist experiments of England; to once again encourage individual thrift and initiative; and to see to it that achievement, as formerly, gets a reward commensurate with service rendered.

Our Federal Government up to 1930, for the most part, kept its nose out of the affairs rightfully belonging to the individual States and to business and industry; it encouraged Competitive Enterprise and made a fairly successful attempt at keeping the national debt down and the budget balanced.

When we entered World War I, the Federal debt was slightly over 1 billion dollars, even at the end of that war, the debt had risen to only 25 1/2 billion dollars, and by 1930 this had been reduced to 16 billion dollars.

Now, we stagger under the twin handicap of a debt in excess of 250 billion dollars and exorbitant taxes. The Administration, taking no heed of the morrow, advocates socialist schemes that will further increase the national debt and add to the already onerous tax burden. No real American begrudges one single dollar economically spent to keep our Armed Forces strong and well equipped, or helping nations abroad stave off Communism.

But the Federal Government must tighten its belt. Extravagant and unnecessary expenditures must be cut, most certainly no new ones must be added. The Hoover Commission has pointed the way for a

reduction in the army of servants who are eating at the public trough at the taxpayers expense. Congress should swiftly, perhaps with some minor revisions, adopt this plan. The chief function of many of the Government bureaus seems to be to hamper business, to frustrate Competitive Enterprise and impede "The American Way." There abolition would have the two-fold beneficial result of easing the tax burden and taking bureaucracy off the backs of business and industry.

Then, if Congress will say "NO" emphatically to the various socialistic schemes that are now being proposed, this nation will again attain some semblance of an orderly economy. The Congress would do well to heed what Grover Cleveland, to quote him again, said in his Inaugural Address on March 4, 1893: "The lessons of paternalism ought to be unlearned and the better lesson taught that while the people should patriotically and cheerfully support their government, its functions do not include the support of the people."

The telling of a falsehood is like the cut of a sabre; for though the wound may heal, the scar of it will remain.—Saadi.

Falsehood, like the dry rot, flourishes the more in proportion as air and light are excluded.—Richard Whately.

No species of falsehood is more frequent than flattery; to which the coward is betrayed by fear, the dependent by interest, and the friend by tenderness.—Caleb C. Colton

Falsehoods not only disagree with truths, but usually quarrel among themselves.—Daniel Webster

RELIGION AM A FINE IDEA- BUT IT TAKE A GOOD MAN TO FALL DOWN IN DE MUD AN' GIT UP AN' PRAISE DE LAWD

By Gene Byrnes

Doing Good for Evil Is Best Way to Make Friends of Enemies, Peale Says

By Dr. Norman Vincent Peale

In an Ohio town sometime ago a group of long-time friends was discussing a well-known political figure who was prominent in the politics of the Buckeye State in my boyhood days. Across the intervening years I clearly remember him. He had a lovable and attractive personality. He was an enormous man physically and was very religious. I can see him yet moving down the aisle of the church where he was the head usher. He moved with a certain dignity that was unforgettable.

There was many a story about him. One of these I remember distinctly. It had to do with a younger man who had political ambitions. He did not have the gift of understanding that characterized the older man. He was not quite philosophical enough. There was no kindly give and take in his makeup. He was bludgeoning his way, so he thought, to the top and as a result was experiencing rather stiff opposition. He rubbed people the wrong way, thus creating a great many enemies. On one occasion he was talking with the older man and complained about these enemies. With illconcealed rancor he told the more experienced politician what he intended to do to these enemies, how he was going to crush them.

The older man was kindly and tolerant and said, "Son I would not do that if I were you. That will not get you anywhere. You do not want to make a lot of enemies."

"Well," said the boy, "I already have a lot of them. What can I do about them?"

The older man answered, "I will give you a little suggestion about how to handle an enemy. There is only one thing to do with an enemy, only one, and that is to make a friend of him. You cannot afford the luxury of even one enemy if it can be avoided."

"But how can you turn an enemy into a friend?"

"Son, I have a little trick about that and it works like a charm. It

will work for you, too. Here it is. 'Love your enemies, bless them that curse you, do good to them that hate you, pray for them despitefully use you.' Then, with a twinkle in his eye he asked, 'Do you recognize the source of that quotation?'

Of course, a preacher would be expected to say that, but coming from an astute, worldly-wise politician, it carries considerably more weight.

The Biblical text quoted by the old politician is absolutely practical. Apply it to your home and take it to your business tomorrow. If you apply it, keep applying it, and learn more about the use of it, you can turn your enemies into friends.

If in dealing with people who treat you badly, you do not retaliate in kind but try to build up that fine something within them for which they are blindly reaching, you will turn them from enemies into friends, because you are doing the finest thing for them. In doing so you will satisfy their craving to be appreciated, and ultimately they come to love you. You have to be somewhat of a personality to do this, but I am assuming that you are such, and besides, you have Almighty God to help you. "Bless them that curse you, do good to them that hate you..."

It is so simple. Your enemies are being childish, and all that they want is your esteem and your regard. If you give them back curse for curse, hate for hate, they will not like you, but they will come to like you if you bless them.

Barnacles are small crustaceans which adhere to rocks and the bottoms of ships.

Woodrow Wilson was the first president to leave the U. S. during his term of office.

Robert E. Lee and George Meade were the opposing generals at the Battle of Gettysburg.

King Richard I was popularly known as Richard the Lion Hearted.

"Just think — 20,000 more years until the State Fair of Texas!"

REG'LAR FELLERS

Then The Fight Started

The Celotex-an

By Mrs. O. R. Criswell

Mr. and Mrs. I. D. Acklin and children spent the week end in Anson as guests of Mr. and Mrs. C. H. Watts.

Mr. and Mrs. George Goforth, Mr. and Mrs. Jack Bond and daughters, and Mr. and Mrs. O. R. Criswell and children, were guests in the home of Mr. and Mrs. G. M. Bond last Sunday.

Mr. and Mrs. Odell Hayes have moved to Corpus Christi. Mrs. Hayes was formerly Miss Mary Lou Bond.

Mr. and Mrs. John Hix and Mr. and Mrs. Bobby Colwell have moved into Celotex community recently.

Mrs. Esther Ervin returned to her home last week after having spent the summer in Lubbock as a guest of her sons, George and Clifford and their families. She also visited her daughter, Mrs. H. N. Ford.

Mr. and Mrs. L. H. Clark were guests of Mr. and Mrs. Hershel Ewing in Abilene Sunday.

Tom Campbell who has been under treatment in Hamlin Memorial Hospital for pneumonia is reported to be recovering.

Mrs. Lou Ervin is in Noodle as a guest of her daughter, Mrs. Lillie Birchell, who has been ill.

Mrs. Sherman Moulton of Lamesa visited in the home of her sister, Mrs. L. E. Hines last week.

Mr. and Mrs. Ira Green spent Sunday in Abilene as guests of their son-in-law and daughter, Mr. and Mrs. Loy Renfro.

Mrs. Tommy Maxwell of California visited last week with former school mates, Mrs. Myrtle Clark, Mrs. Celia Ford and Mrs. W. B. Kins. Mrs. Maxwell is the former Irma Flint.

Mr. and Mrs. L. E. Hines and Mr. and Mrs. Wayne Wainwright were guests of Mr. and Mrs. J. W. Hines of Flat Top Sunday.

Mr. and Mrs. Bud Whitley and son, Martin, have been on vacation in Pleasant View, Colo.

Mrs. Ben Crane of Abilene visited in the home of Mr. and Mrs. Charley Early Sunday.

Mrs. Nora Lockhart, who has been visiting in the home of Mr. and Mrs. W. C. Lockhart, has gone to Rotan to visit Mr. and Mrs. Howard Barnes.

R. L. Criswell of San Angelo spent

Dr. and Mrs. J. W. McCrary have announced the engagement and approaching marriage of their daughter, Johnnie Sue, to Danny Pate Sims of Graham. The wedding will take place in the home of the bride's parents at 1 p. m. Saturday, Sept. 24. Dr. Will C. House, pastor of the First Methodist Church, will officiate.

Mrs. W. H. Birdwell of Abilene is a guest in the home of her son-in-law and daughter, Mr. and Mrs. W. L. Fletcher, this week.

Mr. and Mrs. Bob Tegart and Mr. and Mrs. E. A. Preston have returned to their homes here from a trip to New Orleans.

Mr. and Mrs. Bud Ferguson have returned to Hamlin after a trip to Glen Rose.

New best sellers in our LENDING LIBRARY at the BOOK SHOP, Phone 63.

Tuesday and Wednesday as a guest of Mr. and Mrs. O. R. Phelps.

Mr. and Mrs. Roy Phelps and children were guests of Mr. and Mrs. R. B. Spencer Tuesday.

Mr. and Mrs. H. C. Carr visited Mr. and Mrs. John Ashley of Roby last week end.

Mr. and Mrs. Odell Wilbanks and daughter, Mary Ann, spent Sunday in Sweetwater.

Born to Mr. and Mrs. Johnny Hester of this community, a son, Samuel Carr, in Callan Hospital, Rotan, September 8.

Persons With Allergies Are Urged To Seek Medical Aid for Relief

Allergy, or sensitivity to various substances, is not a new ailment that suddenly struck for the first time during this generation. But the fact that allergy is responsible for a number of conditions which were formerly unexplained has been known to medical science for the past few years.

The person who is allergic reacts peculiarly to contact with a certain substance or agent that is harmless to most people. The allergic person is usually normal and healthy in all other respects.

When the offending agent affects the skin of an allergy patient, it causes a rash similar to eczema. Another common allergic reaction is hay fever, a condition resulting when the eyes and nose of the sufferer are sensitive to ragweed pollen or pollen of other plants.

An allergic person whose bronchial tubes are affected by some agent, causing difficulty in breathing, is said to have asthma.

We still have a lot to learn about allergies, but progress is constantly being made toward relieving and even curing allergic patients. When he seeks medical treatment, the person with allergic reactions will find that the doctor questions him thoroughly about his habits, his occupations, his home life, environment, diet and other living habits.

Before he can specifically advise or treat his allergic patient, the doctor must act as a detective and a complete history of the patient furnishes him with "clues" in finding the offending agents and substances.

Then the doctor can advise his patient in avoiding things which the sufferer is sensitive, and, in some cases, the doctor can even treat his patient so that he will build up resistance to the substances bothering him.

In his search for the offending agents, the doctor may also use skin tests on his allergic patients. Among the most common substances causing sensitivity are milk, eggs, fish, alcoholic beverages, spices, plant pollens, house dust, animal hairs or dandruff, tobacco, insecticides and drugs.

An allergy in itself is not a serious illness. But things like hay-fever and asthma, when neglected, can interfere with sound health as well

as cause great discomfort. The person who suspects he has an allergy takes a wise step when he consults his doctor for relief.

Officers Are Named By Girls Auxiliary

Officers for the coming year were elected by the Junior Girls Auxiliary of the First Baptist Church, in a business meeting held Monday afternoon.

Lusara Dean was elected president, and other officers are: Reba Roland, vice president; Terry Stringer, secretary; Cecelia Albritton, pianist, and Ida Carter, song leader.

Mrs. LaFoy Patterson and Mrs. George Yark are counselors for the group.

Members present at the meeting were Lusara Dean, Reba Roland, Terry Stringer, Cecelia Albritton, Carter, Hazel Cruz, Saella Goodman, Jessie Florence Forbes and Hearthu Wayne Forbes.

Cheshier Appointed Drum Major for Band

Donald Gene Cheshier was elected drum major for the Hamlin High School band, it was announced this week by Walter P. Chalcraft, band director and instructor.

The band, organized during the summer, played for the Spur-Hamlin football game last Friday night as its first public appearance at an athletic contest.

Filing the first company non-communist affidavits with the government, even though the Taft-Hartley Act requires signatures only from union leaders, wins acclaim for the officers and directors of the Timken Roller Bearing Company. In a letter to Secretary of Labor Maurice Tobin, William E. Umstatter, Timken president, pictured above, states that company officers, directors and men charged with negotiating contracts with labor unions should sign anti-communist and anti-subversive oaths.

According to General Counsel Robert N. Denham of the National Labor Relations Board, the affidavits were accepted with pleasure and will be kept in the files as evidence of the outstanding good faith and managerial cleanliness of the Timken organization.

Several moves have been made in congress, unsuccessful so far, to require oaths from employers as well as unions.

Hamlin Births

To Mr. and Mrs. J. B. Hester of Hamlin a son, September 10, in Callan Hospital, Rotan. The child has been named Samuel Carr.

To Mr. and Mrs. Raymond Perry, a daughter, Sept. 14, in Hamlin Memorial Hospital. She has been named Sandra Ray.

To Mr. and Mrs. John R. Brown Jr., a daughter, Sept. 16. The child has been named Nancy Carole.

To Mr. and Mrs. Frank Herrington, a son, Sept. 17, who has been named Frank Hugh.

To Mr. and Mrs. Eugene M. Dowell, a daughter, Sept. 18. She has been named Judith Lea.

New Marriage Law to Take Effect in Texas October 5; Requires Physicals

A new marriage law in relation to marriages in Texas will become effective October 5, it was announced this week by county officials. The law was passed by the recent session of the legislature.

A medical examination for both the man and woman is required under terms of the new statute, and the examination must be taken not more than 15 days prior to issuance of the license.

Included in the examination will be blood tests from both parties. The blood samples must be sent to an approved laboratory for analysis and the principals must then be declared free of infectious disease before they will be issued the wedding permit.

In the usual case, the officials pointed out, the applicant must consult a qualified physician, licensed to practice medicine and surgery. The physician takes a sample of blood and submits it to the approved laboratory.

A confidential report is then made to the physician and and to the

Q—Must a disabled veteran go to a vocational school or may he go to a liberal arts college, a high school, or similar institution under the Vocational Rehabilitation Act?

A—He may enroll in any VA approved educational institution or training establishment offering the course of training which VA has found he needs to insure his proper rehabilitation in line with his own desires.

Q—My brother, a disabled World War II veteran, is being rehabilitated under Public Law 16. Must he find his own job or will VA do this?

A—Veterans Administration will help your brother look for a job after he finishes his training.

Texas State Board of Health, which will send a certificate form to the doctor.

The certificate then is filled out and given to the applicant.

The completed certificate must then be given to the county clerk, who will issue a license.

The new law was adopted as House Bill No. 568.

Sleep Is Advised As Antidote for Most Ailments

Sleep is a necessity of life and health according to Dr. Geo. W. Cox, state health officer, and habitual loss of sleep will tend to retard the body's recovery from fatigue of the day's activities.

"We may be able to go without sleep for a night or two, but too little sleep for a prolonged period will undermine the health of a rugged person and turn a cheerful individual into a cross, irritable one," Dr. Cox said. "When good health can be protected to such a large extent merely by sleeping, and thus allow overtaxed bodies and minds to secure the proper rest, it is hard to understand why so many persons are heedless of this important health measure."

Some individuals require more sleep than others. How well we sleep is as important as how long we sleep. A good night's rest means a sufficient number of hours spent in sleep to enable each person to feel well, do efficient work, and to keep

"The Greatest Story Ever Told" in LENDING LIBRARY, at THE BOOK SHOP, Phone 63.

in a cheerful humor the next day. "Some outdoor exercise each day, a comfortable bed, and fresh air in our sleeping quarters," Dr. Cox said, "will help us to sleep soundly at night. Do not mull over your problems and ideas after you have gone to bed. Make your plans early in the evening for a good night's rest by slowing down from the physical and mental work of your daily life. When you arise each morning, rested and with a feeling of general well being, you will be amply repaid for your thought in planning a good night's sleep."

General John J. Pershing is credited with having said, "Lafayette, we are here."

President McKinley was assassinated in Buffalo, N. Y. in 1901.

Centipedes get their names from two Latin words meaning hundred footed.

ACROSS FROM WEST TEXAS UTILITIES

Rowland Is Called 'Paul Bunyan' of Gridiron in Story; Stars at Tulsa

The "Paul Bunyan" of the gridiron. That is the appellation applied to Brad Rowland, former Pied Piper football star, and now 196-pound halfback on the McMurry Indian team.

Rowland, who is a junior in McMurry College this year, is being talked as a candidate for a berth on the little all-America college eleven—and it is likely he will land the berth. He played outstanding ball against Tulsa University Saturday night.

A story in the Fort Worth Star-Telegram last Saturday said:

Out here on the prairies of West Texas they tell fabulous stories of the Paul Bunyan of little college football.

It seems, however, that the tales of this fellow's prowess have not reached past the borders of the state.

Thus, this season, McMurry College will move outside Texas for some games so that the nation may know about Brad Rowland.

Rowland, a 196-pounder, is a halfback. But when the Indians go into their winged T he is quite likely to be the man under or the fullback. He's in his third season and already is known as a one-man team, although McMurry has always had a pretty good club to go with him.

Rowlands runs, passes, frequently leads the interference and Coach Wilford Moore leaves him in on defense because of his superior tackling ability.

Last fall he averaged 6.6 yards every time he carried the ball, rolling up 1,111 yards. He didn't pass much but completed six out of 11 to add sufficient yardage that he was seventh in the nation in total offense. As a punter he averaged 41.2 yards on 34 kicks.

This year Moore plans for him to do a lot of passing.

Rowland in his first college season (he came from little Hamlin) did such things as run 89 yards with a kick-off against Centenary, take back a kick-off 91 yards against Texas A&I and lope 90 yards with a punt against Austin College. Against Abilene Christian College, always a tough cookie in Texas football, he gained 121 yards—more than the entire ACC backfield.

Last year he turned in numerous scampers of 50 and 55 yards. His greatest night was against Southwestern when he averaged seven yards per carry for a total of 159 scored twice, passed for one touch-

down and averaged 42 yards punting in addition to turning in a great defensive exhibition. McMurry clinched the Texas Conference title with a 34-14 victory.

But he has done all his traveling on Texas gridirons and they say here that if he's to make little All-America he has to expand his scope. He'll get the opportunity this year. Saturday night he rambles against Tulsa at Tulsa and October 8 will be in Hattiesburg, Mississippi, rolling against Mississippi Southern.

They say here he's got the stuff to star on any gridiron. "Brad performs best when the craps are down," comments Coach Moore.

Data concerning the big Hamlin player was released last week by McMurry College and gave the following information:

Rowland is 20 years of age, the son of Mr. and Mrs. Brad Rowland of Hamlin, weighs 195 pounds and is 6 feet tall.

His college major is physical education and he has a scholastic average of "B". He served as president of the sophomore class in 1948.

Rowland played four years in Hamlin High School, 1943 to 1946 and was all-district for the years of 1944, 45 and 46.

In addition to making all conference in 1947 and 1948 he was voted the most "valuable player" in the conference in 1947.

He was listed among the nation's leading backs in every NCAB release of 1948. In small colleges he ranked fourth in rushing, sixth in defense, and ninth in punting.

In 1948 he averaged 6.8 yards gain each time he carried the ball, and rolled up the impressive total of 1164 yards during the season. He attempted 10 passes and completed six of them. He gained 190 yards on passes. In 34 punts he averaged 41.6 yards. During the 1948 season he scored eight touchdowns for a total of 48 points.

SPUR—Fire, believed to have started from defective wiring, destroyed the lunch room at Spur High School last Monday night. Estimated damage in the blaze was set at \$7,000, of which amount \$2,800 was covered by insurance.

MERKEL—A campaign for funds with which to carry on Boy Scout activities in Merkel got underway with a breakfast Tuesday morning. Solicitors in the drive worked throughout the day to raise money.

Camp Fire Girls Work Told by Miss Crawford

Miss Kathleen Crawford, area executive for Camp Fire Girls, told members of the Hamlin Lions Club about the work being done with girls in the organization.

The Camp Fire Girls was organized more than 30 years ago in Maine, she said, and now has groups throughout the United States. Emphasis in the organization is placed on training the girls to be better wives and mothers. She said the motto is "Learn by Doing."

Hamlin has two groups of Camp Fire Girls, who recently observed the "fly up" ritual to emerge from Blue Bird status to the more mature organization.

ROBY—A booster caravan, to advertise the Fisher County Fair, will leave Roby Friday, Sept. 16, for a full day's tour of towns in this area. The caravan will stop at Hamlin, Aspermont, Jayton, Spur, Post, Snyder, Roscoe and Sweetwater.

ROBY—Mrs. C. H. McClure and Tommy Stewart were named directors of the Fisher County Memorial Hospital at Roby for the coming year. W. D. Neeves was reelected to the board.

SNYDER—Services for Mrs. C. J. Harrell, 78, were conducted last Wednesday afternoon. Mrs. Harrell died Tuesday morning following an extended illness.

ROTAN—Final rites for Mrs. B. F. Reeves, widow of Rotan's physician, were conducted last Monday morning. Mrs. Reeves, 74, died in the Callan Hospital last Sunday morning.

Mr. and Mrs. S. W. Coker of Colorado City were guests in the home of Mr. and Mrs. J. W. Griffin in Hamlin last week end.

Abilene Fair to Offer Diverse Entertainments

D. H. Jefferies, veteran president of the West Texas Fair Association, announced this week that the 1949 Fair which opens here for one week on Sept. 26, will be an all out "Blitzkrieg on Boredom". Spearheading the association's avowed attack on boredom will be the most diversified entertainment schedule offered fair patrons in many a year.

The fair's five-eighth mile track has been put in top shape for a four day horse race meet and two days of auto races. Sandwiched in between these attractions will be two free shetland pony shows which promise to be a major attraction as far as the kinds are concerned. Rounding out a full entertainment program will be the two free aerial circus shows to be presented nightly in front of the grandstand plus a midway of 25 shiny, new carnival rides.

The reputation which this regional fair has attained over the years for presenting the best in agriculture and livestock shows will be upheld in this year's show. Shows will be held for Herefords, Jerseys, sheep and goats, poultry, swine, and shet-

Mrs. Holden Honored With Birthday Party

Mrs. J. W. Holden was guest of honor at a birthday party given on the occasion of her 77th anniversary. Mrs. Ira Green and Mrs. J. L. Blanton were hostesses.

Guests brought gifts, which were opened and displayed. Refreshments were served.

Those present were Mrs. Beatrice Cooley, Mrs. Wade Green, Mrs. J. C. Green, Mrs. L. B. Holden, Mrs. John Whaley, and Mrs. Watson. Those who sent gifts were Mrs. Lydia Miller, Mrs. Evelyn Wilkerson and Mrs. J. C. Bessie.

HASKELL—Final arrangements for the annual Central West Texas Fair, which will open here October 3, were being made this week in meetings of committees.

ANSON—A breakfast meeting opened the annual drive for funds to carry on a Boy Scout program in Anson. The breakfast was held Tuesday morning in Memorial Hall.

Herald Want-Ads Pay and Pay!

land ponies. The agriculture department shows will include community exhibits, FFA and 4H Club exhibits, and a canned goods division in the woman's department.

Jim Harwell Is Named Sophomore President

Jim Harwell was elected president of the sophomore class of Hamlin High School in a business meeting Tuesday morning. Other officers named are: Frank Alber, secretary; Joe Dean, treasurer, and David Ford and Peggy McCleary, reporters.

Vernon Townsend and Walter Chalcraft were elected sponsors of the class.

Mrs. Vera Nobles has been returned to her home here from Colorado, where she spent a vacation.

Preparations at State Fair Zoom As Opening Nears

With less than three weeks remaining before opening day, the 1949 State Fair of Texas is enthusiastically primping for its biggest and gayest party, like a proud lady dressing for the social event of the season.

This week workmen are busily bedecking the queen of the nation's expositions with brilliant colors, bunting, and all the other trappings of glamour, in preparation for the fair's sixty-fourth annual sixteen-day party of parties.

Festivities start October 8, and state fair officials confidently predict 2,000,000 guests will arrive for the big, fantastic exposition.

Meanwhile fair directors and officials are under enormous pressure as they hurriedly complete details for the presentation of some 10,000 different attractions in the fields of big-time entertainment, livestock and agriculture, commercial exhibits, educational and cultural shows.

Outside the executive offices, workmen this week are swarming over the fair's 187 acres, putting finishing touches to the enlarged Cotton Bowl, installing brighter lighting systems, building new horse stalls and sheep pens, grading and paving new walks and parking areas.

The rides of the state fair midway have ceased their summer toll and now stand quiet, as imaginative painters daub them with the most vivid colors known to man.

In Oak Ridge, Tenn., officials of the American Museum of Atomic Energy are carefully making final floor layouts for displays which are already packed for the fair's atomic energy exhibit.

Mrs. W. H. Birdwell of Abilene is a guest of Mr. and Mrs. W. L. Fletcher Sr., this week.

Mr. and Mrs. Tom F. Holman had as their guests Mr. and Mrs. T. K. Dixon of Houston last week.

WTCC Photo Contest Closes September 30

Somewhere in West Texas someone has made an outstanding photograph which is sought by the West Texas Chamber of Commerce for publicity purposes. The organization has announced the first annual All West Texas photographic contest, in connection with the Museum of Fine Arts.

The contest will be open to both professionals and amateurs. The prizes will be 4x5 Graphic cameras in both classes, for pictures made in West Texas during 1949. The contest will close Sept. 30, and judging will be by members of the WTCC staff.

The contest is being conducted with the corporation of the local Chambers of Commerce in 132 counties of West Texas and entry blanks are available from the manager.

Engagement Is Told Of Vannie Huling

Announcement of the engagement and approaching marriage of their daughter, Vannie, was made this week by Mr. and Mrs. Ray Huling.

Miss Huling will be married October 8 to Jimmy L. Ruth, son of Mr. and Mrs. W. R. Ruth of Archer City.

Miss Huling is employed by the Ferguson Theater in Hamlin, and Ruth is employed by the B. A. Duffy Drilling Co., also of Hamlin.

Elmer G. Johnson, President of Harlingen State Bank, Harlingen, Texas, writes, on February 20, 1948: "Please send another bottle of Liquid Garlic, also send a bottle to my sister-in-law, Mrs. Hulda C. Dutton, 45 Atwater Terrace, Springfield, Massachusetts.

"I have some good reports to make on the effectiveness of garlic used. Mr. Turner, Texaco dealer here has taken two bottles and is much better, his blood pressure down about 60 points. Mrs. W. F. Nelson, of San Benito, who was in bad shape, is also very much better and her blood pressure down considerably. This Garlic works, and you are doing a fine job of producing it for benefit of those suffering from high blood pressure or heart trouble."

Hundreds of other testimonials of similar nature.

THE Sad STORY OF TEN LITTLE FREE WORKERS

(It is later than you think... it can happen here!)

THESE ARE THE WORKERS

REDDY DOCTOR RAILROADER MINER STEELWORKER FARMER LAWYER GROCER SALESLERK REPORTER

Ten little free workers in this country fine and fair.
But if you cherish your freedom—worker have a care!
Ten little free workers—Reddy was doing fine
Until the socialists got him—then there were nine.

Nine little free workers laughed at Reddy's fate
Along came federal medicine—then there were eight.

Eight little free workers thought this country heaven
But the government took over the railroads, then there were seven.

Seven little free workers—till the miners got in a fix.
Uncle said coal's essential and took over leaving six.

Six little free workers 'till the day did arrive
The steel mills too were federalized—then there were five.

Five little free workers—but the farmers are free no more
The farms have been collectivized—that leaves only four.

Four little free workers till the government did decree
All must have free legal advice—then there were three.

Three little free workers—the number is getting few,
But with government groceries selling food—then there were two.

Two little free workers—our story's almost done,
With clerks at work in federal stores—that leaves only one.

One little free worker—the reporter son-of-a-gun
Mustn't criticize government—so now there are none.

Ten little workers—but they are no longer free
They work when and where ordered, and at a fixed rate you see,
And it all could have been prevented if they'd only seen fit to agree
And work together instead of saying "it never can happen to me!"

Does the fear of punitive action of government bureaucracies prevent your action in defense of the freedoms for which our forefathers toiled and fought... or is such action just too much personal trouble?

WE HAD BETTER WAKE UP... IT'S LATER THAN YOU THINK!

West Texas Utilities Company

WHY THE MISSOURI PACIFIC RAILROAD STRIKE?

Over twenty years ago, the Congress of the United States passed the Railway Labor Act. It was hailed by union leaders as a model for the settlement of labor disputes.

THE LEADERS of the Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen and Enginemen, Order of Railway Conductors, and the Brotherhood of Railroad Trainmen on the Missouri Pacific Railroad have refused to avail themselves of the peaceful means provided by this Act for settling their disputes. They insist that they be the sole umpire of their own disputes over the meaning of contracts.

There is no Need for Strikes

With all of the available methods for the interpretation of contracts, there is no need for a strike or even a threat of a strike, but the leaders of these railroad unions have ignored the ordinary procedures established by law and insist upon imposing their own interpretations of their contracts by means of a strike.

The wheels have stopped rolling on the Missouri Pacific. They may stop rolling on other railroads at any time. Recently the Wabash Railroad was forced to discontinue operation for several days under similar circumstances.

What are These Strikes About?

These strikes and strike threats are not about wage rates or hours. They result from disputes over the meaning of existing contracts. They cover claims for a full day's pay for less than a day's work, or for payments for services performed by others who were fully paid for the work done.

President Truman's Board Condemns Strike

There is an established legal method for handling disputes involving existing written contracts—just as there is such a method of settling any contract dispute which you may have in your daily life.

The President of the United States appointed a Fact Finding Board to investigate and adjust the Missouri Pacific dispute. This Board reported, in part, as follows:

"... It is with a deep sense of regret that we are obliged to report the failure of our mission. It seems inconceivable to us that a coercive strike should occur on one of the nation's major transportation systems, with all of the losses and hardships that would follow, in view of the fact that the Railway Labor Act provides an orderly, efficient and complete remedy for the fair and just settlement of the matters in dispute. Grievances of the character here under discussion are so numerous and of such frequent occurrence on all railroads that the general adoption of the policy pursued by the organizations in this case would soon result in the complete nullification of the Railway Labor Act..."

Obviously the railroads cannot be run

efficiently or economically if the leaders of the unions ignore agreements or laws.

Provisions of the Law which are Disregarded

There are five ways under the Railway Labor Act to settle disputes over the meaning of contracts:

- 1—Decision by National Railroad Adjustment Board.
- 2—Decision by System Adjustment Board for the specific railroad.
- 3—Decision by arbitration.
- 4—Decision by neutral referee.
- 5—Decision by courts.

The Missouri Pacific Railroad has been and is entirely willing to have these disputes settled in accordance with the requirements of the Railway Labor Act. Regardless of this fact, the union leaders have shut down that railroad.

Innocent Bystanders Suffer Losses and Hardships

There are about 5,000 engineers, firemen, conductors and trainmen on the Missouri Pacific. They are known as "operating" employees, and are the most highly paid of all employees on the nation's railroads, but their strike action has resulted in the loss of work to 22,500 other employees of the Missouri Pacific. In addition, they have imposed great inconvenience and hardship upon the public and the communities served by that railroad.

The Railway Labor Act was designed to protect the public against just such interruptions of commerce.

If these men will not comply with the provisions of the law for the settlement of such disputes, then all thinking Americans must face the question, "What is the next step?"

Patchwork of Ups and Downs Seen in Southwest Markets Prices of Week

Price trends at southwest farm markets formed a patchwork of ups and downs during the past week, the U. S. Department of Agriculture's Production and Marketing Administration reports.

Wheat lost a cent or two for the week, but white corn advanced 3 to 5 cents a bushel, yellow corn 5 to 7, and oats and barley a fraction. Milo gained 4 cents a hundred pounds. No. 1 hard wheat closed Monday at \$2.30 3-4 to \$2.36 3-4 at Texas common points. No. 2 yellow milled sold from \$2.21 to \$2.26.

More new crop rice on the market lowered prices a little last week. Most feedstuffs brought lower prices too, but wheat millfeeds advanced. Hay prices rose \$1 to \$3 a ton as wet weather slowed haymaking. Peanuts showed little change.

Cotton closed Monday unchanged 10 cents lower than a week earlier. Spot middling 15-16 inch brought 29.15 cents a pound at Dallas, 29.30 at Houston, 29.35 at Galveston, and 29.90 at New Orleans.

Livestock marketings increased last week over the week before which was cut short by a holiday. Beef and veal sold higher and pork and lamb lower for the week.

Cattle gained early last week but

lost later. Monday's closing prices were mostly the same as a week earlier, but some classes held gains up to \$1 while others showed similar losses. Good calves sold up to \$21.50 at Houston, \$23 at San Antonio, and \$22 at Oklahoma City. Good and choice made \$22 at Fort Worth and \$24 at Denver.

Hog prices also moved up and down during the week, and closed Monday largely 25 to 50 cents lower at Texas markets and 1 to \$1.50 at Oklahoma City and Denver. Feeder pigs held steady. Butchers topped at \$21.50 at Fort Worth.

Spring lambs sold steady to strong for the week at Texas markets but somewhat lower at Oklahoma City and Denver. Ewes showed little change. Good ewes sold around \$10 at San Antonio, and \$8 to \$8.50 at Fort Worth. Goats lost 50 cents to \$1 at San Antonio. Common and medium goats sold Monday at \$6.50 to \$6.75.

Wool interest last week centered in the Denver auctions, where prices held firm. Mohair remained fairly steady in Texas trading.

Colorado cauliflower sold stronger this week at \$1.90 to \$2 a crate. Onions also moved up to \$1.75 a sack for 2 to 3 inch Sweet Spanish. New Mexico apples and Colorado cabbage were in liberal supply at Fort Worth, but lettuce remained scarce. Louisiana sweet potatoes steadied after early weakness, as wet weather slowed digging. Most U. S. No. 1 Porto Ricans loaded on trucks at \$3 per crate.

Egg prices rose several cents a dozen as cool weather spurred demand. Canned white eggs reached 60 cents at Dallas, and large candied eggs brought 55 to 58 at Fort Worth. Denver paid 54 to 59 for large whites. Poultry held steady in the southwest despite lower prices in other areas.

Warning of Present Day Dangers Sounded by Editor 140 Years Ago

By GEORGE PECK

The following quotation is not taken from a newspaper, the editor of which is disgruntled with what is currently transpiring at Washington. It is part of an editorial which appeared in the Hartford (Conn.) Courant of August 16, 1809—140 years ago:

"A wise government is the people's guard, and it takes effectual care that there should be none to molest or annoy, none to interrupt them in their lawful callings and pursuits. Thus guarded there is full scope and also sufficient encouragement for industry and enterprise. Each individual employs himself as he finds it most to his own advantage, and each, in advancing his own interest by honest industry, adds to the common stock."

"A nation resembles a swarm of bees. The bees must be well hived, protected from external and internal annoyance and injury, and left free as air to make their combs, construct their cells, and labor in hive or field according to their own liking. Thus protected and thus free, they seldom fail to treasure up honey."

"But who makes the honey? Not the guarder of the hive but the bees themselves. So civil government (by government is meant the administration of a government), however so wise and vigilant, is not the direct and efficient cause of a nation's wealth, which is, in fact, produced by the Great Swarm, the PEOPLE."

"On the other hand, should the keeper of the bees undertake to dabble in their private concerns, interrupt their labors or divert their wanted courses of enterprise into new channels—should he foolishly do this, he would find little or no honey in the hive at the end of the year. And so again, whenever government is so impudent as to obstruct or divert the enterprise and industry of the people by hampering them with unnecessary regulations, a decay of public prosperity follows as a natural consequence."

"Some men, however, seem to think that commercial industry and enterprise should come under the particular direction of government. But why? On the one hand, there are but few among the rulers and legislators of nations who possess extensive information in mercantile matters; whilst on the other, there are no people that know better how to manage their own concerns than experienced merchants. They know best how, when and where to put their property afloat; they can best calculate the risks and all the chances of loss and gain. It belongs to government to protect commerce, to guard it by a few general regulations and there leave it. The skill of the merchant will do the rest."

"ALL HISTORY TESTIFIES THAT TRADE FLOURISHES MOST WHERE IT IS FREE, AND THAT IT SOON LEAVES THE NATION THAT SHACKLES IT."

The things that have taken place in Washington these past few years prove the wisdom of what this most discerning editor of the Hartford Courant wrote 140 years ago. During the past 16 years the Adminis-

trations have chosen to direct even to obstruct business rather than to confining their activities solely to protecting it.

Surely the present plight of a once mighty and liberty-loving English people should warn us that we must permit no further encroachment by Washington into the affairs that properly belong to private ownership and control. For, verily, England's messy experiment with Socialism has brought her to the brink of bankruptcy and the English people to an unhappy condition of servitude.

The Hartford Courant editor of 1809, were he alive today and writing his editorial, undoubtedly would add two phrases to its closing sentence so that it would read: "(LET AMERICA BEWARE BECAUSE) ALL HISTORY (INCLUDING THAT OF ENGLAND TODAY) TESTIFIES THAT TRADE FLOURISHES MOST WHERE IT IS MOST FREE, AND IT SOON LEAVES THE NATION THAT SHACKLES IT."

Simmons Is Named Post Commander Of Local Legion

Jimmie Simmons, a World War II veteran, was elected commander of the Hamlin American Legion post in a business session Monday evening. He will succeed Joe L. Culbertson, who served in that capacity for the past four years.

Fred Smith was elected first vice president for his second term in that post. Roy J. Curtis was named second vice president and Harold Bonner was chosen for third vice president.

Brad Rowland was reelected adjutant of the post with opposition. Other officers named were Fred Hudson, historian; Fred Carpenter, service officer; J. C. Turner, child welfare; Dr. P. A. Fowler, sergeant at arms, and Buren Carlton, chaplain.

The post voted to continue meeting twice each month, with meeting nights set for the second and third Monday evenings.

Officers chosen by the post went to Anson Tuesday evening where they were installed in joint installation rites participated in by Anson and Stamford posts.

Officers for the three posts were invested with the duties of their new positions in the same ceremony.

Miss Elma Joy Lee Is Bride of Graham Man

The wedding of Miss Elma Joy Lee to Preston Halberther of Graham, was announced this week by Mr. and Mrs. U. Lee, parents of the bride. The vows were read for the couple in the Calvary Baptist Church Tuesday, with Rev. Leo Pate officiating.

The bride wore a gray satin dress with black accessories. She carried a white Bible with pink carnations. Mrs. L. O. Littlefield, sister of the bride, served as bridesmaid, and L. O. Field was best man.

Juanez Branscum played the wedding march. Following the wedding a reception was given in the church.

Halberther is the son of Mr. and Mrs. E. P. Halberther of Graham. Following a short trip to New Mexico, Mr. and Mrs. Halberther will make their home in Hamlin, where the bridegroom is employed by the Duffey Oil Co.
